

# Be a safety hound with Buddy.

**1**

What is a poison?

A. Anything that can make you sick if you eat, drink, touch or smell it.

B. Products that grown-ups use every day, but may be dangerous for kids, like cleaning supplies, things in the garage and some plants.

C. Foods that are not stored or cooked correctly.

D. All of the above.

**2**

If you see a child who is eating something that looks poisonous to you, you should:

A. Tell your friends.

B. Tell him to stop and get a grown-up right away!

C. Hide the pills, a grown-up may get upset if they see!

D. Try eating it too.

**3**

True or False? A poison can even be something that is pretty, has a nice color or smells good.

Circle all the numbers to find the Oregon Poison Center's phone number.

A: 1, D, All of the above. 2, B, Tell him to stop and get a grown-up right away! 3, True.
